CABLEGRAMS.

TURKEY.

FINANCIAL MEASURES. Constantinople, May 17.—The Porte has discontinued negotiations with the Ottoman Bank for a loan of £20,000,000, and intends resuming the project for easing the general debt under the auspices of a French syndicate.

GREAT BRITAIN.

THE TURF. London, May 17.—Betting on the Derby is 50 to 1 against Lorillard's Uncas. Charibort is the favorite at 9 to 2. Elf King is placed last, at 500 to 1.

Trouble at Dartmouth College. Hanover, N. H., May 17.—The students of Dartmouth College, having sent a written apology to the faculty for their recent conduct, President Bartlett informed them to-day that the expelled students would be received back in regular standing. Now the young men who were held under the pump threaten criminal prosecution of the assailants, if the faculty does not inflict punishment.

Meteorological.

Washington, May 17.—Indications: For Tennessee and Ohio valley higher pressure, north to east wind, warmer, clearer or partly cloudy weather, and in the former local rains. For Lake region, generally higher pressure, winds most south to west, and warmer or partly cloudy weather, except for the northern portions of the upper lakes; local rains and shifting to cooler northerly.

A New Railroad Enterprise. Yankton, Dak., May 17.—The Central Railroad Company having filed articles of incorporation with the secretary of the territory, was to-day granted a patent. The organization is a part of the Chicago and North-western Railway Company, and its object is to extend a line of road from Tracy, Minn., to the Missouri River near Fort Pierce, in Dakota.

Religious. Saratoga, May 17.—The Presbyterian assembly to-day referred to a committee the memorial deprecating the running of trains and steamboats on Sunday, and authorized Rev. Mr. Thompson, of Peoria, Ill.; J. D. Burdill, of Iowa; and Rev. Dr. W. Calkins, of Buffalo, to select the next place for meeting of the assembly.

Bank Statement. New York, May 17.—Loans, increase, \$1,089,600; specie, increase, \$18,300; legal tenders, decrease, \$4,425,800; deposits, increase, \$6,487,500; circulation, decrease, \$25,000; reserve,

decrease, \$5,779,375. Banks now hold \$10,808,625 in excess of legal requirements.

WASHINGTON.

Proposed Treaty Negotiations With Mexico—Military Affairs.

An Important Circular to Applicants For Arrears of Pensions.

THE FOUR PERCENTS.

Washington, May 18.—Subscriptions to the 4 percent funding certificates since yesterday's report, \$774,980; total to date, 15,808,720.

MEXICAN RELATIONS.

Washington, May 17.—The house committee on foreign affairs has authorized Wilson to report favorably his joint resolution providing for further treaty negotiations with Mexico.

MILITARY AFFAIRS.

Gen. Sherman says military affairs were never so well arranged in the west as now, and that Gen. Sheridan had reduced everything to an admirable and effective system.

Capt. Lincoln, of the 10th infantry, and not Lawton, of the 4th cavalry, shot the soldier of the 23d infantry, at Fort Griffin, Tex., for mutiny.

PENSION ARREARAGES.

In response to a letter addressed by Secretary Schurz inquiring what amount of funds can be made available monthly for the payment of arrears due upon pensions at a period prior to January 15th, 1879, the secretary of the treasury states that, including the amount already paid, \$2,500,000 will be available prior to July 1st and two million dollars monthly thereafter. At this rate nearly the whole of the next fiscal year will be required to complete the payments of these arrears.

The commissioner of pensions, in view of this, has issued a circular letter to applicants for arrears, saying that a comparatively small number of cases can be adjusted monthly, and therefore some delay may occur in the settlement of claims, but settlements will be made in such order as to distribute payments equally among the several pension agencies as near as may be.

CONGRESSIONAL.

SENATE.

Washington, D. C., May 17.—Consideration of legislative executive and judicial appropriation bill was resumed. Among the amendments agreed upon was one offered by Voorhees appropriating \$50,000 for the purpose of works of art.

The amendment recommended by the finance committee of an appropriation of \$50,000 for the diplomatic and consular service, to be expended at the discretion of the president was agreed to. The reason for this amendment is that there is a movement in Europe to arrange for a bi-metallic standard, and it might be thought advisable to send a representative thither to take part in the proceedings.

HOUSE.

Consideration was resumed of the bill to amend the law relating to the transfer of cases from state to United States courts.

McLean spoke in favor of the bill and Urner against it. Pending argument the morning hour expired, and the bill went over until Tuesday next.

Consideration was then resumed of the bill to amend the statutes relating to gold and silver coinage and coin and bullion certificates, the question being on the third sections and amendments thereto.

The first amendment thereto was offered by Belford, conferring the privilege of free coinage of the silver mined in the United States.

Wireless.

The secretaries of young men's christian associations of the country are in session at Baltimore, arranging for the meeting of the international association in that city next Wednesday.

At Saratoga to-day the Presbyterian general assembly elected Revs. C. A. Dickey, H. G. Junkin and Chas. Barclay trustees of the ministerial relief fund. A committee was appointed of two from each synod to consider the subject of reduced representation. The north Indiana members are John F. Kendall and R. P. Ellinger.

The Catholic students who were expelled from the Flint (Mich.) deaf, dumb and blind asylum for refusing to take part in Protestant church services have been reinstated.

Marine.

New York, May 17.—Arrived—Steamship Republic from Liverpool.

Bonds Filed.

The following bonds have been filed in the city clerk's office:

Dennis O'Brien, street commissioner, \$2,000; snaffles, J. B. White and O. P. Morgan, \$2,000; snaffles, city civil engineer, \$2,000; snaffles, Charles McCulloch, George Fox and T. B. Hendrick.

CRIME & CASUALTY.

Mining Disaster at Eaton, Pa.
—Great Fire at Chico, Cal.

A Mysterious Murder Case at Cincinnati.

Two Indictments Returned Against the Rev. Geo. Harding, of Indianapolis.

HARDING INDICTED.

Indianapolis, May 17.—The grand jury returned two indictments against Geo. C. Harding, editor of the Herald, for attempting to shoot Light, of the Times, and one for shooting Gerhard Larkin. Harding is out on bail, but his whereabouts are not definitely known. It is reported that he is at the Cincinnati sanitarium, undergoing treatment, and that it is feared he will become permanently insane.

STRUCK BY LIGHTNING.

Cincinnati, May 17.—During the progress of a thunderstorm, Thursday evening, at Fredericksburg, Ind., Sam Durvill and Josiah Mourning, two young men, who had been working in a field and who had taken refuge under a large sycamore tree, were struck by lightning and instantly killed. Mourning was knocked into the river and Durvill was found sitting up against the tree.

THE LOSS BY THE BURNING OF LIVE'S saw mill at Newport last night, was \$30,000; insured in the Niagara of New York, Roger Williams of New York, Home of New York, Lancaster of Philadelphia and North America of Philadelphia for \$1,000 each; Exchange of New York and Lancashire of England for \$2,000 each; Knickerbocker of New York, \$2,500; Kenton of Kentucky \$3,400.

DETROIT, MAY 17.—A fire at Montague, Mich., last night destroyed the Montague curtain roller and handle factory, dry kiln and warehouse. A barn filled with machinery and a large quantity of lumber, all owned by the stock company and also a boarding house, owned by D. C. Owen. Loss on the factory and other buildings of the company, \$20,000; insurance, \$15,000.

Hazleton, Pa., May 17.—The double braked saw mill owned by Hazleton & Co., burned this morning. Loss \$24,000; insurance \$12,000.

San Francisco, May 17.—A fire at Chico, last night, destroyed two blocks in the business portion of the town. Loss, \$50,000; insurance, \$50,000. One man burned to death.

Fryburg, Me., May 16.—Disastrous forest fires are raging. A heavy loss of timber and lumber is reported.

St. Paul, May 17.—Four buildings, in the business part of the town of Lezeur, burned last night, and the destruction of a whole street was only saved by great exertion.

FOUND DEAD.

Cincinnati, O., May 17.—The body of an unknown man was found at Spring Grove Cemetery, this morning, with his head crushed. By the side of the body was found a club and a large stone covered with blood and brains.

No clue to the murderer is yet gained. No one recognized the dead man. When the body was stripped the letters "G. W." were found written on the right arm.

Mining Disaster.

Eaton, Pa., May 17.—John and Robert Bous, miners, were buried 100 feet beneath the surface this morning by the caving in of the ore washing pond. Robert was taken out dead, but John's body is not yet reached.

SENTENCED TO HANG.

Auburn, N. Y., May 16.—Brother-ton, aged sixty-eight, who murdered his son-in-law in 1877, and whose case has since been in the courts, was to-day sentenced to hang July 11th.

SUICIDE OR ACCIDENT?

Buffalo, May 17.—George W. Barney, formerly proprietor of the United States Hotel, probably fatally shot himself yesterday.

TRIP BENTON.

Belvidere, N. J., May 17.—Ex-state senator, J. B. Cornish, convicted of a conspiracy to defraud the county of \$10,000, and J. H. Sweeney, ex-chief of police of Phillipsburg, convicted of raising county bonds, were each sentenced to one year in state's prison.

THE COURTS.

CIRCUIT.

Orlando E. Bradway was appointed administrator of the estate of Joseph A. Stellwagen; bond, \$1,500; Jas. C. Hewes, surety.

NEW SUIT.

Gottlieb Thieme vs. Martin Schaleh et al, note, \$100.

SUPERIOR.

William L. Carnahan et al vs. Thos. S. Heller et al, note \$500.

JUSTICES.

BEFORE RYAN.

In the case of the State vs. Jacob Hahn for provoke on Caroline Hahn, yesterday, in which it was set forth that Jacob called Caroline some very endearing names, and threatened to caress her with a poker, the court assessed Jacob a fine of \$1.00, and requested him to pay the costs of the suit.

POLICE.

James Collins, Falker's first victim, took a stroll around to the city hall, this morning, to see the mayor. Jim, it appears, had been flogging a few

yesterday, and laid down right in front of the cathedral to take a nap. This wouldn't do, as he was disturbing the workmen at the Washish shops; so Frank waited him round to the jug, where his moans couldn't penetrate through the stink. The mayor casually remarked that if Jim could leave town in twenty minutes he had better start right away, as the deputies would begin a search for him in just twenty-one minutes, and if he was found inside the city limits he would be obliged to go over the river and play croquet. Jim headed due south and is now half way to Texas.

We take pleasure in saying that we have known Dr. von Moschzisker for several years, and that he possesses undoubted skill and that he is strictly honorable in all his dealings.

E. R. MARTINDALE & CO.

From the President of the Meridian National Bank.

It gives me great pleasure to state to the public that under Dr. von Moschzisker's treatment, not only has my hearing been restored, but my entire health has been materially improved, and I am now able to do my usual business.

DAVID MACY.

From the President of the Indianapolis "Sentinel" Company.

To Dr. von Moschzisker, Grand Hotel, Dear Sir:—It gives me great pleasure to say to you that you have succeeded in restoring my son's hearing. I can not tell you how much your success has gratified me. Very respectfully yours,

Feb. 8, 1877.

Senator Voorhees to Dr. von Moschzisker.

Terre Haute, Ind., Aug. 8, 1878.—Dr. von Moschzisker—My Dear Sir:—I thank you very sincerely for the relief I received from your treatment of my hearing, which has been seriously impaired since February last, the result of an excessively severe cold. I did not need this evidence in my own case, but I am sure of its value to others in addition to what I had already obtained from others had been necessary, you have simply furnished it.

Wishing you great and continued success in your profession I have the honor to be, with great respect,

Very truly yours, D. W. VOORHEES.

Lafayette.

The undersigned has been under the professional care of Dr. von Moschzisker, from our intercourse with him, and from testimonials in his possession, we are enabled to state that he is a gentleman of medical skill and of large experience in the treatment of diseases of the respiratory organs, and from our own knowledge, we can state that he is a man of high moral character, and of great confidence in the public mind.

Having been known to us that he proposes to visit other cities in order to establish his own exclusive experience, and to avoid those persons who are his services and cannot leave home an opportunity of consulting him, we recommend him to the cordial support of the press and the confidence of the communities he may see fit to visit. We willingly thus endorse him, that he may not be misled by those who are strangers in the category of traveling physicians, and that he may at once command the confidence which is his due, without the otherwise necessarily prolonged residence in each place.

Congressional Summary.
Friday, May 16.—SENATE.—The legislative bill, executive and appropriation bill was taken up and read. Messrs. Eaton, Conkling, Kernan and others addressed the Senate. A resolution was adopted providing for the appointment of a standing committee to whom shall be referred all resolutions, petitions, etc., relating to the traffic in alcoholic liquors. A bill to prevent the spread of contagious diseases among cattle was reported from the committee on agriculture and made the special order for next Tuesday. The silver bill then came up again, and after some discussion, was postponed without any important action.

OUR cablegrams say that vigorous press prosecutions are being conducted in France. Senator GRUBBS would find France a paradise.

THE Gazette's biographical sketches of possible republican nominees for governor are quite thrilling. Just as if it made any difference who is to be nominated by that party next year!

THE Gazette is thrown into a spasm because of a remark in the SENTINEL last evening to the effect that "the draining of the prairie west of the city is a work of so much importance that the county might well afford to make the improvement, and pay for it out of the public treasury." The Gazette's spasm is entirely unnecessary. The SENTINEL is not advocating such an appropriation because it is not needed and if it were it could not be obtained. Nevertheless we adhere to our first proposition and repeat that the county could afford to do this work, even if it had to be paid for out of the public treasury.

A FEW WORDS TO THE BOARD OF HEALTH.

Every new board of health comes into office with loud promises of what it proposes to accomplish in the way of sanitary reforms, and how strictly it will enforce the laws relating to nuisances. As a usual thing the board stops with these promises, and that is the last heard of them. The new board is thus far no exception to the rule. It has met, organized, and issued a high sounding pronouncement; now it should attend to business. Nearly every physician in the city was a candidate for membership in the board, and those whom the council honored with an election should vindicate that body's action by prompt and faithful attention to their duties, or else the citizens will undertake to find three physicians who will do so. It will not do for these gentlemen to sit back and complain that the council does not sustain them and that they have not sufficient power and authority to carry out their wishes, because that is not so. Once elected, the board need ask no help from the council. The charter and the council gives the board ample power to take the most prompt and efficient measures to prevent the introduction and spreading of contagious, malignant and infectious diseases in the city, "also full power to establish, publish and enforce all by-laws, rules and regulations necessary for requiring the observance of such sanitary regulations and restrictions as shall be determined upon by them."

Section 5 of chapter v., of the revised ordinances, provides that "it shall be the duty of the marshal and his deputies, upon written requisition of the board of health, to enter into and examine the condition of any building, cellar, inclosure, vault, privy or other place, which said board may consider to be foul, damp or otherwise prejudicial to the public health, and

direct and enforce any and all measures for effectually cleaning, mitigating, amending or disinfecting the same, and removing and abating all nuisances or evils prejudicial to the public health in such manner as may be directed, and for such purposes the board of health, or any member thereof, may accompany such officer. And it shall be the duty of the street commissioner, or any supervisor of streets, at all times, on the requisition of the board of health, promptly and effectually to cause the removal from any street, alley or other place in the city, of any filth or impurities prejudicial to the public health."

It will be seen from the above extracts from Chapter v. of the Revised Ordinances, that the board of health has all the power that is necessary to enable it to place the city in a first class sanitary condition. The board says that the present sanitary condition of the city is very bad; but if it is not at once changed the board itself, and nobody else, is to blame. Every foul alley, noxious privy vault, pool of stagnant water, load of filth or other disease-breeding nuisance can be wiped out if the board of health will do its duty. If its members have "sand" enough to exercise the power vested in them, all will be well.

We desire also to call attention to the following sections of the same chapter of the revised ordinances:

Section 6. The city clerk shall, in addition to his other duties, keep in proper books to be procured for that purpose, a record of the name, age, nativity, color, occupation, social relation, number and street of residence, cause and date of death, and duration of last illness, of every person dying within the corporate limits of said city.

Sec. 7. It shall be the duty of every undertaker, or other person, before removing any corpse for burial, to obtain from the city clerk a permit to do so, and before obtaining such permit, he shall deposit in the clerk's office, a certificate setting forth, as nearly as can be ascertained, the name, age, sex, nativity, color, occupation, social relation, number and street of residence, cause and date of death, duration of last illness, and the place and date of intended interment; which certificate shall be signed by the physician at the time of death. In case no physician or surgeon was in attendance, such certificate shall be signed by some relative or attendant. In case a coroner's inquest shall be held, that fact shall be stated, and the coroner shall report the fact to the board of health. If any physician, relative, or attendant, refuse to sign such certificate, the undertaker shall report the same to the health officer, who shall investigate the facts and report the same to the clerk.

Sec. 8. No conductor of any railroad, or master of any vessel, or express company, or coach driver, or any single person, shall remove, or cause to be removed from the city, any corpse, unless the permit required in the foregoing section be first obtained.

Sec. 9. If any physician, undertaker, relative, or other person, required by the provisions of this ordinance to give information necessary to the keeping of such record, shall refuse, or wilfully neglect to furnish the same, it shall be the duty of the clerk to notify the city attorney of such refusal or neglect, and it shall be the duty of said attorney to commence an action immediately against such person or persons wilfully neglecting to do so.

The above sections are, and have been for years, a dead letter. It is high time that they are enforced. It is the practice of our undertakers to bury dead bodies without any permit whatever. At the end of the month they gather together a few blanks, fill them out and file them in the clerk's office. That is they sometimes do this, but not always. The careless and loose manner in which this is done is shown by the fact that a prominent city official died on March 1st, and the burial certificate is not yet on file. The importance of enforcing the provisions of these sections concerning burial permits is not, we think, generally understood. It is important.

MAN'S MORTALITY.

[Believed to have been written about the year 500.]

Like as the dandelion you see,
Or like a blossom on a tree,
Or like the daisy flower in May,
Or like the morning in the day,
Or like the sun, or like the shade,
Or like the gourd which Jonas had;
Even such is man, whose thread is spun,
Drawn out and spun, and spun again,
The rose withers, the morning blazeth,
The sun sets, the shadow flies,
The gourd consumes, the man—be dies.

Like to the grass that's newly sprung,
Or like a tale that's new begun,
Or like the bird that's here to-day,
Or like the peacock in the May,
Or like an hour, or like a span,
Or like the singing of a swan;
Even such is man, whose life is brief,
Is here now there, in life and death.
The grass withers, the tale is ended,
The bird is flown, the dew is accented,
The hour is short, the span is brief,
The swan's next death, man's life is done.

Like the bubble in the brook,
Or in a glass much like a look,
Or like the shuttle in weaver's hand,
Or like the wheel in the mill,
Or like a thought or like a dream,
Or like the gliding of the stream;
Even such is man, whose life is brief,
Is here now there, in life and death.
The bubble's out, the look is lost,
The shuttle flung, the wheel is gone,
The thought is past, the dream is gone,
The waters glide, man's life is done.

Like to an arrow from the bow,
Or like a swift course of water flow,
Or like the time that's past, the past must go,
Or like the spider's tender web,
Or like a race, or like a goal,
Or like the dealing of a dale;
Even such is man, whose life is brief,
Is always subject unto fate.

Like the rose that's here to-day,
Or like the morning in the day,
Or like the sun, or like the shade,
Or like the gourd which Jonas had;
Even such is man, whose thread is spun,
Drawn out and spun, and spun again,
The rose withers, the morning blazeth,
The sun sets, the shadow flies,
The gourd consumes, the man—be dies.

BOUNCE THE BACHELORS.

A Learned Correspondent En-
largely Upon the Cause of Celibacy—
Impending Ruin to the Re-
public—Suggestion to the City
Council.

To the Editor of the Sentinel:
"Look on the picture! Deem it not over-
charged."

That the United States is passing
through a new transition cannot well
be denied by our most learned and
astute statesmen. The causes which
are bringing this change upon us, I
apprehend, are not understood by the
people generally. Some attribute
this "change" to the financial policy of
the republican party, while others of
unbiased judicial judgment affirm,
that the policy pursued by the mono-
metallists and bi-metallists has been
detrimental to the interests of the
people of the United States. If it be
admitted that our country is passing
through a "new transition," the ques-
tion will be asked, "What will be the
effect of the change? Will we be
then, as now a united people living
under a federal compact of states, or
a centralized government ruled by a
king or emperor? My opinion is that
we will not be living
under either one of the forms
of government above mentioned when
this change takes place. Our govern-
ment is fast falling to pieces, and in a
short time we will be classed among
the "lost empires or republics." There
is just one cure for this condition of
public disintegration, the disintegra-
tion of our federal union, this dis-
content among the people. I cannot
truly say that these things have
been brought about by the policy of
the democratic or republican parties
for the past fifteen or sixteen years.
The cause of all our troubles is the
fact that so many old bachelors are
allowed to exist in our community!
This may seem strange, but let a faith-
ful historian answer. He says: "We
have no laws affecting celibacy, the
bachelor enjoying equally with the
married man all the rights and priv-
ileges of citizenship, which is a man-
ifest injustice, for the husband and the
father render to the state services
which the man, disengaged from con-
jugal ties, cannot afford."

Thus in all ages, and in all states,
bachelors have been considered as the
natural enemies of society."

History proves what has already
been observed—that the decadence of
empires is precisely in relation with
the increase of single men (old bache-
lors).

My dear reader, look around you
here in Allen county, and see what we
are coming to.

How many bachelors are there in
Fort Wayne? They are so numerous
that no man can find time to count
them. Go where you will and they
are to be found. The court house is
full of them. The halls of legislation,
both state and national, are full of
them. Our postoffice is controlled by
a bachelor. The "republican organ" is
owned and controlled by bachelors.

The democratic SENTINEL is partly
owned and managed by a robust and
healthy old bachelor. The
prosecuting attorney of the
criminal court, too, is a
fossilized old bachelor. Businesshouses
and banks and railroad offices are
crowded with them. Is this not a
fearful state of society? What will
be the result if old bachelors are al-
lowed to increase as they have been
during the past ten years? Will not
society be broken up? And when so-
ciety is ruined, does it not follow, as
a matter of course, that government
retrogrades and disintegration follows?

If it is a historical fact that the de-
cadence and decline of governments is
precisely in relation with the increase
of old bachelors, do not the examples
of lost empires set us a fearful exam-
ple? Let us look to the Orient and see what
has become of her ancient empires
and cities and note the cause of their
decline. Palmyra, the scriptural Tadmor,
with its temple of the sun and
grand avenue flanked with over 1100
columns, ending with a triumphal
arch "forming a triple gateway,"
Nineveh, the walled city of Assyria,
and Babylon, the city of pleasant
palaces and once famous for its
"hanging gardens" and beautiful
temples, and Persepolis, the Persian
metropolis, where once reigned the
great kings Cyrus, Darius and Xerxes.
Nor must we overlook the cities of
Shiraz, Cashmere, Apamea, El Bara,
and Bagdad, all of these ancient cities
hoary with antiquity having long
since passed away, and are known to
us only as the cause of the downfall of
these peoples was the large number of
old bachelors who lived in these
ancient cities and who controlled their
governments. The Roman republic
had the same evil to contend with.
The republic of the United States is
now contending with the same curse.
Listen again to the historian: "In
proportion as the Roman republic re-
laxed its rigid virtues, and relinquish-
ed its austere manners, the number
of bachelors constantly in-
creased. In vain the senate enacted
laws to compel them to marry." The
question of the hour is, not what will
we do with our girls, but what will
we do with our old bachelors. History
affirms that they are of no use to the
state or society, and hence I assert that
congress should pass a law compelling
all bachelors to marry before they at-
tain the age of thirty-five, and if they
refuse to do so they shall be disfran-
chised and forever rendered incapable
of holding any office of trust or profit.
This may seem hard and severe, but
something must be done or our glori-
ous republic—a *pluribus unum*—will
crumble and fall, just as cities and
empires of the Orient have done.

Celibacy is contrary to nature, for
it is a well known fact, and is attested
by physiologists, too, that at certain

times in the life of old bachelors they
have to be bled. The reasons for this
"operation" need not here be
stated, but the readers of this can best
draw their own conclusions. Would
it not be a gala day among our medi-
cal men if our city council should
order all the old bachelors of our city
to be bled as a sanitary measure?

Southey says that "A man may be
cheerful and contented in celibacy
(old bachelorhood), but I do not think
he can ever be happy. It is an unnat-
ural state, and the best feelings of his
nature are never called into action."

And it seems to me, Mr. Editor,
when old bachelors surround them-
selves with dogs, birds and cats, and
set society at defiance, something
should be done by the "powers that
be" to arouse them "out" of a hoary
celibacy. Go where you will you find
bachelors.

Bachelors to the right of us,
Bachelors to the left of us,
Bachelors all around us,
Nothing but bachelors, bachelors, bache-
lors.

THE BLUE RIBBON.

State Temperance Ticket Repudiated—
Election of Officers—Resolutions,
Etc.

The state blue ribbon convention
at Indianapolis this week, among other
resolutions, adopted the following:

Resolved, that no sectarian or partisan
line be drawn, and we welcome all men
of whatever creed or political faith to our
ranks. And further,

Resolved, that the temperance movement
originated in earnest efforts for personal
reform, and rests its hopes of success on
moral and religious grounds; therefore,
Resolved, that we are opposed to the
use of the ribbon movement for political
purposes, either for or against any politi-
cal party, and we disapprove the call made
for a temperance convention to nominate
candidates for political offices as unwise
and premature.

Resolved, that while we desire stringent
laws for the suppression of the evils of in-
temperance, and will rejoice in the total
prohibition of the liquor traffic, we de-
mand that all questions of nominations,
and other political action, be submitted to
the free choice of all temperance people.

The election of officers resulted as
follows:

President—H. W. Harrington, Indianap-
olis.

Vice Presidents—J. C. Kensell, Fort
Wayne; Walter March, Muncie; G. M. Ot-
tem, Terre Haute.

Treasurer—R. Frank Kennedy, Indian-
apolis.

Corresponding secretary—James S.
Walsh, Greenfield.

Board of managers—D. T. Smith, Buff-
alo; R. T. Long, Galveston; Dr. Fitchman,
Greensburg; J. Williams, Franklin;
Rev. John Wyman, Evansville.

The following resolutions were also
adopted:

Resolved, that it is not practicable to dissolve
existing temperance organizations, or se-
cure one which shall supersede them all,
and make no recommendation to that
effect.

We recommend that this union perfect
its organization, and conduct its work
in its own way—not as the rival, but the
helper of all other temperance bodies.

We recommend that the executive
committees of all the state temperance
organizations of Indiana hold a joint meet-
ing, on call of the president of the union,
and agree on a plan of operation for con-
centration and expression of temperance
sentiment and will.

We recommend that this co-operative
executive meeting call a mass meeting of
the temperance people of the state at some
time during the proposed Laporte temper-
ance camp meeting.

THE GENUINE
DR. C. McLANE'S
Celebrated American
WORM SPECIFIC
OR
VERMIFUGE.

SYMPTOMS OF WORMS.

The countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach; at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times constive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hicough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist,

DR. C. McLANE'S VERMIFUGE will certainly effect a cure.

IT DOES NOT CONTAIN MERCURY.

In any form; it is an innocent preparation, not capable of doing the slightest injury to the most tender infant.

The genuine DR. C. McLANE'S VERMIFUGE bears the signatures of C. McLANE and FLEMING BROS. on the wrapper.

DR. C. McLANE'S LIVER PILLS

are not recommended as a remedy "for all the ills that flesh is heir to," but in affections of the liver, and in all Bilious Complaints, Dyspepsia and Sick Headache, or diseases of that character, they stand without a rival.

AGUE AND FEVER.

No better cathartic can be used preparatory to, or after taking Quinine. As a simple purgative they are unequalled.

Beware of Imitations.

The genuine are never sugar coated. Each box has a red wax seal on the lid, with the impression DR. C. McLANE'S Liver Pills.

Each wrapper bears the signatures of C. McLANE and FLEMING BROS. Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but same pronunciation.

TUTT'S PILLS!

A NOTED DIVINE SAYS

THEY ARE WORTH THEIR WEIGHT IN GOLD

READ WHAT HE SAYS:

Dr. TUTT—Dear Sir: For ten years I have been a martyr to Dyspepsia, Constipation and Piles. Last Spring your Pills were recommended to me; I took them (but with little faith). I am now a well man, have good appetite, digestion perfect, regular stools, piles gone, and I have gained forty pounds solid flesh. They are worth ten times their cost in gold.

REV. R. L. SIMPSON, Louisville, Ky.

A TORPID LIVER

Is the fruitful source of many diseases, such as Dyspepsia, Sick Headache, Constipation, Biliousness, Rheumatism, Kidney Complaints, Colic, etc. TUTT'S PILLS exert a powerful influence on the Liver and will with certainty relieve that important organ from disease, and restore its normal functions.

The rapidity with which persons take on flesh, while under the influence of the pills of TUTT'S PILLS, indicates their adaptability to nourish the body, hence their efficacy in curing nervous debility, dyspepsia, wasting of the muscles, sluggishness of the bowels, constipation, and imparting health and strength to the system.

CONSTIPATION.

Only with regularity of the bowels can perfect health be enjoyed. When the constipation is of recent date, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, one pill should be taken every night, gradually increasing the frequency of the dose until a regular daily movement is established, which will secure permanent health and strength to the system.

DECEASED TRIBUTE TO A. L. HOPKINS.
In the *Peoria (Ill.) Journal* of the 15th inst. is the following tribute to the genius and energy of President Hopkins, of the Wabash:

When A. L. Hopkins first took possession of the T. P. & W. road, and inaugurated those reforms that have proved so salutary, there were those who said that who sneered at him as a man with a paper reputation, and when he took the Wabash as the successor of a deceased railroad manager, the sneer of every deep-seated into howls of rage and fear. With the radicalism of going, he cut off all combinations save that of the T. P. & W. on the one hand, and the Peoria, Pekin and Jacksonville Railroad, as regarded here as a master stroke of policy. It makes the T. P. & W. the richest and the most important of the Wabash. It cuts off the P. & E. on the one hand, and the T. P. & W. on the other. It saves \$25,000 for the Wabash and the T. P. & W. in this city alone. It sets at naught the building of another track from Peoria to this city, and gives the T. P. & W. all the chance for a great success. Mr. Hopkins has made a great success of the Wabash thus far, but in nothing has he shown his ability as a railroad man so well as in this purchase.

THE GENUINE

DR. C. McLANE'S

Celebrated American

WORM SPECIFIC

OR

VERMIFUGE.

SYMPTOMS OF WORMS.

THE countenance is pale and lead-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely failing; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccup; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist,

DR. C. McLANE'S VERMIFUGE will certainly effect a cure.

IT DOES NOT CONTAIN MERCURY in any form; it is an innocent preparation, not capable of doing the slightest injury to the most tender infant.

The genuine DR. C. McLANE'S VERMIFUGE bears the signatures of C. McLANE and FLEMING BROS. on the wrapper.

DR. C. McLANE'S

LIVER PILLS

are not recommended as a remedy "for all the ills that flesh is heir to," but in affections of the liver, and in all Bilious Complaints, Dyspepsia and Sick Headache, or diseases of that character, they stand without a rival.

AGUE AND FEVER.

No better cathartic can be used preparatory to, or after taking Quinine. As a simple purgative they are unequalled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Each box has a red wax seal on the lid, with the impression DR. C. McLANE'S Liver Pills.

Each wrapper bears the signatures of C. McLANE and FLEMING BROS.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but same pronunciation.

TUTT'S

PILLS!

A NOTED DIVINE SAYS

THEY ARE WORTH THEIR

WEIGHT IN GOLD

READ WHAT HE SAYS!

Dr. Tut.—Dear Sir: For ten years I have been a martyr to Dyspepsia, Constipation and Liver trouble. Last year I was recommended to me; I used them (but with little faith). I am now a well man, have good appetite, digestion perfect, regular stools, piles gone, and I have gained forty pounds solid flesh. They are worth their weight in gold.

REV. R. L. SIMPSON, Louisville, Ky.

A TORPID LIVER

is the fruitful source of many diseases, such as Dyspepsia, Sick Headache, Constipation, Dropsy, Bilious Fever, Ague and Fever, Jaundice, Piles, Rheumatism, Kidney Complaint, Colic, etc.

TUTT'S PILLS exert a powerful influence on the Liver and will certainly relieve that important organ from disease, and restore its normal functions.

The rapidity with which persons take on flesh, while under the influence of these pills of itself indicates their adaptability to nourish the body, hence their efficacy in curing nervous debility, dyspepsia, weakness of the muscles, indigestion of the liver, chronic constipation, and imparting health and strength to the system.

CONSTIPATION.

Only with regularity of the bowels can perfect health be enjoyed. When the constipation is of long standing, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, one pill should be taken every night, gradually lessening the frequency of the dose until a regular daily movement is obtained, which will soon follow.

Sold Everywhere, 25 cents.

OFFICE, 35 MURRAY ST., NEW YORK.

SICK HEADACHE

PRESBYTERIANISM.

Saratoga, May 16.—At the Presbyterian general assembly Rev. Dr. McLean spoke on behalf of the American Bible Society, and a resolution commending it was adopted. A resolution offered by Rev. Dr. Calkins, of Buffalo, was adopted; also that a special committee be constituted, consisting of one or two members from each synod to be chosen by the commissioners present, to consider the subject of representation and report on or before May 21st. The evening session was devoted to Sunday school work.

FIRE.

New Orleans, May 16.—Henry Otis's box factory at the corner of Julia and Peters streets burned. Loss, \$45,000; insurance, \$25,000.

NEW SUPERINTENDENT.

Indianapolis, May 16.—Mr. Glenn, a dentist of Muncie, has been appointed to succeed McIntire, of the deaf and dumb asylum.

STRIKING MINERS.

Brazil, Ind., May 17.—The striking miners surrounded the Morris coal

shaft this morning and tried to prevent the miners from going to work. The shaft being inside of the corporation the police board swore in extra police and escorted the miners inside the mine, roughly handling several strikers who attempted to interfere. The strikers threaten to make stronger resistance to-morrow morning, but the police board intend having sufficient force on hand to prevent further trouble at this mine.

DEAD HEROES.

Arrangements for the observance of Decoration Day in this city.

The meeting held last night at the city hall, to hear the reports of the different committees on decoration, was largely attended and much interesting shown. The proceedings of the last meeting were read and adopted.

The different committees reported as follows:

The executive committee report the Academy engaged for the memorial services in the evening, and that they have invited Col. R. S. Robertson to deliver the memorial address, Miss Julia Bryant to recite some suitable piece for the occasion, and the Rev. Wagenhals to act as chaplain.

The decorating committee reported themselves willing to go to the cemetery at the hour most suitable and perform their part of the work; the finance committee report that they have had unprecedented success so far in raising funds; the committee on wreaths and flowers reported that they had made arrangements for wreaths and flags, and that they will furnish Mr. Doswell with small flags, to mark the different graves to better enable the decorating committee to perform their duties.

The committee on music reported that they had solicited the services of a quartette club, and that the following gentlemen, Messrs. Yarnelle, Page, Lang and Taylor have kindly consented to assist in carrying out the programme so far as pertains to vocal music.

The committee to decorate the rink reported that they are making all preparations necessary to have the building decorated in a manner suitable for such an occasion.

Reports have been received by the executive committee from a large number of ladies stating that they will be glad to furnish such flowers as they may have on the 30th of May, and that they will leave them at C. B. Woodworth's drug store, under the Avenue House.

The meeting adjourned to meet again Friday evening, May 23d, at city hall.

NOT DESERVING OF PITY.

Beggared spendthrifts, to whom money has no exchange value but pleasure.

Persons who will persist in dying by inches with dyspepsia and liver diseases when Dr. Pierce's Golden Medical Discovery and Pleasant Purgative Pills are unfailing remedies for these maladies.

Parents who spare the rod and ruin the child. Fast young men and women are generally spoiled children to begin with.

People who suffer from catarrh, when Dr. Sage's Catarrh Remedy is a safe, reliable and well tested remedy for this loathsome disease.

People who marry for money, and find too late that the golden glitter is all moonshine.

Women who suffer death every day of their lives from Dr. Pierce's Favorite Prescription will effectually remove those painful weaknesses and impart a healthful tone and strength to the whole system.

People who live beyond their means and find that style and pride, like everything else in this world, unless placed upon a secure foundation, are subject to the law of gravitation.

Invalids who do more toward fostering disease, by living and sleeping in low, unventilated rooms of the ordinary house, than the best medicine can accomplish toward recovery, when at a moderate expense they can secure all the hygienic and sanitary advantages of the Invalids' Hotel at Buffalo, N. THURSDAY'S TRAGEDY.

The Victim, A. M. Webb, Breath-
ed His Last at Ten Last
Night.

An Inquest and Autopsy on
the Remains This
Morning.

Arrest of Three Suspicious
Characters Who Were Af-
terwards Discharged.

Ex-Coroner A. M. Webb, who was
shot by the horse thief on Thursday
evening at 8 o'clock, died from his
wounds at 10.10 last night. He was
in a comatose condition most of the
day, being under the influence of
powerful narcotics, administered
for the purpose of arresting
inflammation. About 4 o'clock yester-
day afternoon he raised himself up
and addressed a few words to his wife
and children. He then relapsed into
a stupor which continued until 10.10
last evening, when he quietly breathed
his last, surrounded by his family, his
physician and the attendants. He
died without a struggle.

This morning Coroner Gaffney visit-
ed the scene and held an inquest. By
the advice of Prosecuting Attorney
Hench and Dr. Myers an autopsy was
held by the latter, assisted by his son,
Dr. H. S. Myers. Following is the
testimony and the report of the au-
topsy:

REUBEN M. WEBB'S TESTIMONY.
My name is Reuben M. Webb; I am a
son of A. M. Webb, deceased. My sister
and myself were in the sitting room at 3
o'clock on the evening of the 15th of May,
1879, when my father left the room to go
to the barn; in about three minutes from
the time he left I heard the report of a re-
volver and heard a call as if some one was
in distress. I went out to him and found it
was my father; he was lying just outside
the barn door, and I saw him what was
the matter. He said there was a man in the
barn who shot him; he told me to go in
the barn and bring the man out; I started
to go in the barn and saw the man stand-
ing in the barn door, back of the horse;
as soon as he saw me he raised his arm
and pointed a revolver at me; as soon as
I saw that I turned and ran to the house.
I stepped out of the barn; I tried
to get the dogs on him, but they would not
go in; I then picked father up and brought
him to the house and laid him on the
lounge; I then put on my coat and shoes
and went up the railroad to Rockville; I
woke up Hugh Rockhill, got a horse and
went to town; on my way I saw Mr.
Byerline and told him father was shot and
that I was going to town after Dr. Myers.
My father was in the habit of
going to the barn every evening about
8 o'clock to see that everything was
secure; I have been employed on the rail-
road for the past six months, but have
never amount to about two weeks, on ac-
count of the illness of my mother; my
father was always very kind to all of his
children.

RHODA A. WEBB, JR.'S TESTIMONY.
My name is Rhoda A. Webb; I was in
bed at the time of the shooting of my
father, A. M. Webb, on the evening of
the 15th of May, 1879; I was awakened by
a report of a revolver, and heard screams;
my father came in and told me that he
thought father was shot; when I came
down stairs I found my husband lying on
the lounge, groaning; he said to me, "Mi-
chael, I am shot and am going to die; I
want you to pray for me." I knelt down be-
side him and prayed for him; he has al-
ways been kind to my family, but for some
time he had poor health and has not
been able to attend to his business. My
husband gave me a description of the man
who shot him.

RHODA A. WEBB, JR.'S TESTIMONY.
My name is Rhoda A. Webb; I am sev-
enteen years of age; I am a daughter of
A. M. Webb, deceased; on the evening of
the 15th of May I was sitting in the dining
room, about 8 o'clock, when I heard a re-
port of a pistol; my brother, Reuben Webb,
was in the room with me; I was about to go
up stairs when I heard the report; I went
out of the house and found my father lying
on the ground near the barn; he was call-
ing for help; when I got to him he said to
me that there was a man in the barn who
had shot him; I called to my brother
to come out, that father was in trouble;
he came to the barn and carried
father to the house and laid him on the
lounge; I assisted him; my brother
went after a doctor.

MARY WEBB'S TESTIMONY.
My name is Mary B. Webb; I am a
daughter of A. M. Webb, deceased; I
am a sister of the deceased; on the 15th
of May when my father was shot; I cor-
roborate my mother's statements.

THE AUTOPSY.
The immediate cause of death, acute
peritonitis. The pistol ball wounded the
large intestine in the right lumbar region.
In its course through the abdominal cavity
it opened the small intestine at two
points, and wounded the sigmoid flexure,
making its exit through the abdominal
walls in the left inguinal region.

W. H. MYERS.
J. H. MYERS.

I, the undersigned, coroner of Allen
county, after having heard the evidence
and examined the body, do find that the
deceased, A. M. Webb, came to his death
by reason of the shooting of a pistol
by the hand or hands of some party or
parties, on the 15th day of May, 1879.
At the time of his death he was about
fifty-seven years of age.

WILLIAM GAFFNEY,
Coroner of Allen County.

HUNTING FOR THE MURDERER.
Sheriff Munson and his deputies as
well as the police officials have shown
much vigilance in hunting for the
guilty party.

Last night patrolmen Doyle and
Myers struck a clue near Ossian, where
a man answering the description given
by Mr. Webb had been seen walk-
ing on the railroad track. They pur-
sued him closely, but the man took to
the woods and escaped under cover of
the darkness. A committee was organ-
ized and gave pursuit, but at last ac-
counts he had not been captured.

Patrolman Frank and Gus Strodel
last night traced a man eastward on
the ridge road who answered the de-
scription of the murderer pretty well.
They were about four hours behind
him, but they tracked him to about
three miles of Maples, when all trace
of him was lost. A later report from
New Haven says the same man was
seen there this morning.

Last night Jailer Meyers received a
telegram from Constable James Wil-
kinson, dated at Columbia City,
stating that he believed he had the
murderers under arrest. Meyers im-
mediately telegraphed to Sheriff Mun-
son at Huntington who returned to
Fort Wayne, and proceeded at once
to Columbia City, accompanied by
Marshal Diehl. Upon seeing the
prisoners Messrs. Munson and Diehl
were both satisfied that the men in
charge—three in number—were the
parties wanted. The officers returned
to this city with the prisoners on No.

4 on the Pittsburgh. The men were
at once lodged in the county jail, and
Reuben Webb was sent for to identify
them. He arrived at the jail and at
once declared them not to be
the parties whom he
had seen around the premises
for the last few days preceding the
murder. Upon this statement being
made Munson released the prisoners.
The men when arrested exhibited
great surprise and affected to be entire
strangers to each other, but it soon
appeared that they had been in com-
pany for some time. They had made
a change of wearing apparel, but the
clothing of the three men could have
been combined so as to tally with the
murdered man's description of his as-
sailant's dress. One of the men was
about the size of Mr. Webb and wore
thin whiskers as he described. One of
the others wore a light drab coat,
while the other one had on a black
stiff hat.

One of the men had in his posses-
sion, when arrested, a revolver, calibre
thirty-two, with one chamber empty,
having the appearance of being re-
cently discharged.

NOTES.
All efforts to find the bullet have
proved abortive.

Mr. Webb carried an insurance of
\$10,000 on his life.

A reward of \$500 has been offered
by the county commissioners for the
apprehension of the murderers.

The theory is advanced in some
quarters that Mr. Webb shot himself
accidentally or purposely, but there
is nothing in the evidence, the au-
topsy or the circumstances to sus-
tain it.

The funeral will take place to-mor-
row afternoon at 3 o'clock from the
late residence under the auspices of
Harmony Lodge F. & A. M. The in-
terment will be in Lindenwood.

The deceased was fifty-seven years
old and was born in Saratoga, N. Y.
He seemed to have a premonition
that he was to die, for on the last day
of his life he explained some of his
business matters to his wife, and di-
rected her what to do in the case of
his death. On Thursday evening,
however, he was in good spirits and
laughed and chatted with his children
until he went to the barn.

Catarrhal**AFFECTIONS**

—AND—

Deafness!

Among the list of chronic diseases which
affect the human frame, catarrh is the
most prevalent, most offensive, most
productive of discomfort, and of a
variety of distressing and dangerous com-
plications. Its earliest and most promi-
nent symptom is a discharge from the
head, varying in its nature in different
cases and even in the same individual at
different times. It may be a thin, color-
less, watery fluid.

"Hawking."

Much of the discharge passes backward
either dropping into the throat or collect-
ing as a tough viscid, fenculous phlegm be-
hind and above the soft palate in the pas-
sage between the throat and the lungs, and
causing great annoyance to one's friends
and to the patient himself, while his sense
of smell remains. This annoyance from
the odor becomes almost beyond endur-
ance, more especially when the disease
assumes the form of eczema, and the de-
licate bones of the nose become diseased.

Offensive Breath.

In the most advanced stages the dis-
charges are generally of an offensive odor,
causing great annoyance to one's friends
and to the patient himself, while his sense
of smell remains. This annoyance from
the odor becomes almost beyond endur-
ance, more especially when the disease
assumes the form of eczema, and the de-
licate bones of the nose become diseased.

Fatal Effects of Catarrh.

The swallowing of catarrhal secretions
deranges the functions of the stomach,
causing indigestion and loss of appetite
and health. It is also a source of dis-
ease, more especially when the disease
assumes the form of eczema, and the de-
licate bones of the nose become diseased.

Consumption and Death.

Catarrhal affections, unchecked by treat-
ment, are prone to extend by continuity
of surface along the natural air passages
of the lungs, thus causing consumption
and death. In this connection it should
also be remembered that the air which en-
ters the lungs of a catarrhal patient is, every
breath of it, poisoned by exhalation from
the foul secretions of the diseased surface.
This consideration alone should be suf-
ficient to induce every person thus af-
fected to make application for relief.

Treatment and Cure.

In few departments of medicine has
there been wrought, in recent times, a
more complete revolution than in that of
the catarrhal affections of the nose and
throat. The introduction of the Laryngoscope
has given a grade of possibility and certainty to the actual
treatment of the disease.

By my treatment a complete and per-
manent cure of this repulsive disorder can
be effected. This I have demonstrated in
many cases, representing the disease in
every form and all its various stages of
development. My applications are made
to reach the diseased parts in the most di-
rect manner, thus insuring complete
penetration of every call and cavity of the
head communicating with the nostrils
and subjecting every portion of the mem-
brane to the healing action of the remedy
employed with the most beneficial results.

Discharge From the Ear.

Discharge from the ear is dangerous,
but to hearing and the eye, especially.
In some cases it occasions total deafness,
while in all, the hearing suffers to a more
or less extent, and none escapes without
some notable loss of hearing power.
Aside from its effect on hearing, the dis-
charge is apt to give rise to Neuritis, Epi-
lepsy, St. Vitus's Dance, Paralysis, and
other nervous disturbances, resulting nec-
essarily to be considered as when we consider
the close proximity of the diseased area to
the great nervous center, the brain, to
which the discharging action of the remedy
might be communicated with fatal conse-
quence.

Noises in the Head.

Noises in the head are sometimes the
first and only indication of a morbid
condition of the ear. At first they are slight
and only come by spells, but after a time
they are constantly present and increase
in intensity. They usually resemble the
escape of steam, the ringing of bells, the
beating of the heart, the humming of
sees, and in fact, every imaginable sound.
Often they prove a source of terrible trou-
ble and distress, and many a patient who
applied to me for relief was far more an-
xious to have the noise removed than the
hearing restored, if only one thing or the
other could be done.

To the Deaf

I would say that they must entirely dis-
card the idea that they are incurable. I
have numerous letters from responsible
men who have given up all hope of relief
because one physician or another, whom
they had been in the habit of consulting
the epitome of medical knowledge, had
pronounced them to be so.

The deaf are frequently hopeless because
of the failure of the efforts of ignorant
pretendents of professional knowledge, and
generally able, but in such cases utterly in-
competent. No other remedies require so
much experience in their treatment as the
diseases of the ear, causing deafness, and
so also the diseases of the Respiratory Or-
gans. Many cases of Deafness are only
caused by what is called Catarrh of the
Inner Ear, and easily cured. Let them
first be convinced that the physician to
whom they apply is worthy of confidence,
and then thoroughly confide in him and
co-operate with him, aiding his skill by
strict attention to his directions. This
only I ask for myself.

THE RAILROADS.

A great deal of lumber is now being transported over the Saginaw road.

Monroeville is to have a new depot on the site of the old one, recently burned down.

Both freight and passenger business is now heavier on the Muncie than ever before.

Engine No. 213, A. W. B. Burton engineer, will come out of the Pittsburgh shops Monday.

Henry Monning, one of the directors of the Fort Wayne, Jackson and Saginaw Railroad, stated to a SENTINEL reporter this morning that during the visit of P. B. Loomis to this city, it was definitely determined to build a depot for that road in this city. The plans and specifications will be forwarded forthwith, and work will be commenced at once. The estimated cost of the building will be about \$4,000.

By the new time card on the Muncie road, taking effect Sunday, May 18th, trains will run as follows:

Cincinnati Mail..... 10 40 a. m.
Indianapolis Express..... 1 20 p. m.
Indianapolis Accommodation..... 4 50 p. m.

And arrive:

Cincinnati Mail..... 5 15 p. m.
Indianapolis Express..... 10 30 a. m.
Indianapolis Accommodation..... 2 30 a. m.

FAST TIME.

This morning a special train, comprising an engine, baggage car and the Union Pacific, Kansas Pacific and Wabash, left Fort Wayne at 8:30 a. m., reaching Fort Wayne (22 miles) at 8:35, making five stops. It left Lafayette at 11:22 and arrived at Danville (47 miles) at 12:31 p. m., making three stops. The party on board consisted of Jay Gould, Sydney Dillon, Russell Sage, Geo. L. Dunlap, A. L. Hopkins, R. Andrews and others.

The following engines and the work: No. 46, J. Humphrey engineer, Toledo to Fort Wayne; No. 12, R. Hamilton engineer, Fort Wayne to Lafayette; No. 73, Elander engineer, Lafayette to Danville.

Forepaugh's Aggregation.

Neither the public nor Mr. Forepaugh were disappointed in the performance of the great circus and menagerie, the only regret of both being that the canvas was not more ample; immense as it is, it was crowded to the last seat, with a heavy delegation of squatter sovereigns on the ground in front. Taken in all its parts—its magnificent display of wild animals, its riders, acrobats, trapeze performers, clowns and other specialists, its perfect order and freedom from annoyance and interruptions, it was the best show that has visited here for years. Its herd of trained elephants is the largest and finest ever exhibited anywhere. The riding of Mr. Stickney is the most wonderful horsemanship ever seen in the arena.

The above is the way the Indianapolis Daily News speaks of the great Forepaugh show which is to exhibit here Tuesday, June 3d.

THURSDAY'S TRAGEDY.

The Victim, A. M. Webb, Breath-
ed His Last at Ten Last Night.

An Inquest and Autopsy on the Remains This Morning.

Arrest of Three Suspicious Characters Who Were Afterwards Discharged.

Ex-Coroner A. M. Webb, who was shot by the horse thief on Thursday evening at 8 o'clock, died from his wounds at 10.10 last night. He was in a comatose condition most of the day, being under the influence of powerful narcotics, administered for the purpose of arresting inflammation. About 4 o'clock yesterday afternoon he raised himself up and addressed a few words to his wife and children. He then relapsed into a stupor which continued until 10.10 last evening, when he quietly breathed his last, surrounded by his family, his physician and the attendants. He died without a struggle.

THE INQUEST.

This morning Coroner Gaffney visited the scene and held an inquest. By the advice of Prosecuting Attorney Hench and Dr. Myers an autopsy was held by the latter, assisted by his son, Dr. H. S. Myers. Following is the testimony and the report of the autopsy:

REUBEN M. WEBB'S TESTIMONY.

My name is Reuben M. Webb; I am a son of A. M. Webb, deceased. My sister and myself were in the sitting room at 8 o'clock on the evening of the 15th of May, 1879, when my father left the room to go to the barn; in about three minutes from the time he left I heard a report, a revolver and heard a call as if some one was in distress. I went out to him and found it was my father; he was lying just outside the barn door; I asked him what was the matter; he said there was a man in the barn who shot him; he told me to go in the barn and bring the man out; I started to go in the barn and saw the man standing in the back of the horse; as soon as he saw me he raised his arm and pointed a revolver at me; as soon as I turned the corner of the barn I saw the man; I stepped out of the barn; I tried to get the dog on him, but he would not let me; I then picked up a stick and brought him in the house and laid him on the lounge; I then put on my coat and shoes and went up the railroad to Rockville's; I woke up Hugh Rockhill, got a horse and went to town; on my way I woke up Mr. Byrline and told him what was shot and that I was going to town after Dr. Myers; my father was in the habit of going to the barn every evening about 8 o'clock, and that evening he was secure; I have been employed on the railroad for the past six months, but have been at home for about two weeks by reason of the illness of my mother; my father was always very kind to all of his children.

RHODA A. WEBB, SR.'S TESTIMONY.

My name is Rhoda A. Webb; I am a daughter of A. M. Webb, deceased. On the evening of the 15th of May I was sitting in the dining room; about 8 o'clock I heard the report of a pistol; my brother, Reuben M. Webb, was in the room with me; I was about to go up stairs when I heard the report; I went out of the house as soon as I heard the shot; I saw my father lying on the ground near the barn; he was calling for help; when I got to him he said to me that there was a man in the barn who shot him; I called to my brother or to some one to come and help me; he came to the barn and carried father to the house and laid him on the lounge; I then went to my brother and told him what was the matter; he said to me that there was a man in the barn who shot him; I went to the barn and saw the man standing in the back of the horse; as soon as he saw me he raised his arm and pointed a revolver at me; as soon as I turned the corner of the barn I saw the man; I stepped out of the barn; I tried to get the dog on him, but he would not let me; I then picked up a stick and brought him in the house and laid him on the lounge; I then put on my coat and shoes and went up the railroad to Rockville's; I woke up Hugh Rockhill, got a horse and went to town; on my way I woke up Mr. Byrline and told him what was shot and that I was going to town after Dr. Myers; my father was in the habit of going to the barn every evening about 8 o'clock, and that evening he was secure; I have been employed on the railroad for the past six months, but have been at home for about two weeks by reason of the illness of my mother; my father was always very kind to all of his children.

RHODA A. WEBB, JR.'S TESTIMONY.

My name is Rhoda A. Webb; I am a daughter of A. M. Webb, deceased. On the evening of the 15th of May I was sitting in the dining room; about 8 o'clock I heard the report of a pistol; my brother, Reuben M. Webb, was in the room with me; I was about to go up stairs when I heard the report; I went out of the house as soon as I heard the shot; I saw my father lying on the ground near the barn; he was calling for help; when I got to him he said to me that there was a man in the barn who shot him; I called to my brother or to some one to come and help me; he came to the barn and carried father to the house and laid him on the lounge; I then went to my brother and told him what was the matter; he said to me that there was a man in the barn who shot him; I went to the barn and saw the man standing in the back of the horse; as soon as he saw me he raised his arm and pointed a revolver at me; as soon as I turned the corner of the barn I saw the man; I stepped out of the barn; I tried to get the dog on him, but he would not let me; I then picked up a stick and brought him in the house and laid him on the lounge; I then put on my coat and shoes and went up the railroad to Rockville's; I woke up Hugh Rockhill, got a horse and went to town; on my way I woke up Mr. Byrline and told him what was shot and that I was going to town after Dr. Myers; my father was in the habit of going to the barn every evening about 8 o'clock, and that evening he was secure; I have been employed on the railroad for the past six months, but have been at home for about two weeks by reason of the illness of my mother; my father was always very kind to all of his children.

MARY WEBB'S TESTIMONY.

My name is Mary E. Webb; I am a daughter of A. M. Webb, deceased. On the evening of the 15th of May I was sitting in the dining room; about 8 o'clock I heard the report of a pistol; my brother, Reuben M. Webb, was in the room with me; I was about to go up stairs when I heard the report; I went out of the house as soon as I heard the shot; I saw my father lying on the ground near the barn; he was calling for help; when I got to him he said to me that there was a man in the barn who shot him; I called to my brother or to some one to come and help me; he came to the barn and carried father to the house and laid him on the lounge; I then went to my brother and told him what was the matter; he said to me that there was a man in the barn who shot him; I went to the barn and saw the man standing in the back of the horse; as soon as he saw me he raised his arm and pointed a revolver at me; as soon as I turned the corner of the barn I saw the man; I stepped out of the barn; I tried to get the dog on him, but he would not let me; I then picked up a stick and brought him in the house and laid him on the lounge; I then put on my coat and shoes and went up the railroad to Rockville's; I woke up Hugh Rockhill, got a horse and went to town; on my way I woke up Mr. Byrline and told him what was shot and that I was going to town after Dr. Myers; my father was in the habit of going to the barn every evening about 8 o'clock, and that evening he was secure; I have been employed on the railroad for the past six months, but have been at home for about two weeks by reason of the illness of my mother; my father was always very kind to all of his children.

The immediate cause of death, acute peritonitis. The pistol ball wounded the large intestine in the right lumbar region, causing course abdominal pain, which was intensified by the small intestine at two points and wounded the sigmoid flexure, making its exit through the abdominal walls in the left inguinal region.

W. H. MYERS, H. S. MYERS.

REMARKS.

I, the undersigned, coroner of Allen county, after having heard the evidence and examined the body, do find that the deceased, A. M. Webb, died from the effects of a gunshot wound inflicted by the hand or hands of some party to me unknown, the day of the shooting being the 15th of May, 1879, at 8 o'clock.

At the time of his death he was about fifty-seven years of age.

WILLIAM GAFFNEY, Coroner of Allen County.

HUNTING FOR THE MURDERER.

Sheriff Munson and his deputies as well as the police officials have shown much vigilance in hunting for the guilty party.

Last night patrolmen Doyle and Myers struck a clue near Ossian, where a man answering the description given by Mr. Webb had been seen walking on the railroad track. They pursued him closely, but the man took to the woods and escaped under cover of the darkness. A committee was organized and gave pursuit, but at last accounts he had not been captured.

Patrolman Frank and Gus Strodel last night traced a man, captured on the ridge road who answered the description of the murderer pretty well. They were about four hours behind him, but they tracked him to about three miles of Maples, when all trace of him was lost. A later report from New Haven says the same man was seen there this morning.

Last night Jailer Meyers received a telegram from Constable James Wilkinson, dated at Columbia City, stating that he believed he had the murderers under arrest. Meyers immediately telegraphed to Sheriff Munson at Huntington who returned to Fort Wayne, and proceeded at once to Columbia City, accompanied by Marshal Diehl. Upon seeing the prisoners Messrs. Munson and Diehl were both satisfied that the men in charge—three in number—were the parties wanted. The officers returned to this city with the prisoners on No.

4 on the Pittsburgh. The men were

at once lodged in the county jail, and Reuben Webb was sent for to identify them. He arrived at the jail and at once declared them not to be the parties whom he had seen around the premises for the last few days preceding the murder. Upon this statement being made Munson released the prisoners. The men when arrested exhibited great surprise and affected to be entire strangers to each other, but it soon appeared that they had been in company for some time. They had made a change of wearing apparel, but the clothing of the three men could have been combined so as to tally with the murdered man's description of his assailant's dress. One of the men was about the size of Mr. Webb and wore chin whiskers as he described. One of the others wore a light drab coat, while the other one had on a black stiff hat.

One of the men had in his possession, when arrested, a revolver, calibre thirty-two, with one chamber empty, having the appearance of being recently discharged.

NOTES.

All efforts to find the bullet have proved abortive.

Mr. Webb carried an insurance of \$10,000 on his life.

A reward of \$500 has been offered by the county commissioners for the apprehension of the murderers.

The theory is advanced in some quarters that Mr. Webb shot himself accidentally, purposely, but there is nothing in the evidence, the autopsy or the circumstances to sustain it.

The funeral will take place to-morrow afternoon at 3 o'clock from the late residence under the auspices of Harmony Lodge F. & A. M. The interment will be in Lindenwood.

The deceased was fifty-seven years old and was born in Saratoga, N. Y. He seemed to have a premonition that he was to die, for on the last day of his life he explained some of his business matters to his wife, and directed her what to do in the case of his death. On Thursday evening, however, he was in good spirits and laughed and chatted with his children until he went to the barn.

BREVITIES.

Esq. Beeks is on the sick list.

City band rehearsal last night.

An adultery case is pending before Ryan.

John Sanders is in jail at Indianapolis.

Mrs. Lee Breese, of West Main street, is quite ill.

Col. Robertson will orate in this city on Decoration Day.

Henry Mettler, of Lake township, is lying dangerously ill.

A large number of carriages were on the streets last night.

The fire committee have addressed a letter to the Silsby Manufacturing Company, with specifications as approved by the council enclosed. The manufacturers are requested to draft a contract and insert the distance to which water will be thrown, and send said contract back to this council for their acceptance or refusal.

Catarrhal

AFFECTIONS

—AND—

Deafness!

Among the list of chronic diseases which affect the human frame, catarrh is the most prevalent, most offensive, most productive of discomfort, and of a variety of distressing and dangerous complications. Its earliest and most prominent symptom is a discharge from the head, varying in its nature in different cases and even in the same individual at different times. It may be a thin, colorless, acrid fluid.

"Hawking."

Much of the discharge passes backward either dropping into the throat or collecting as a tough viscid, tenacious phlegm behind and above the soft palate in the passage between the throat and head. Its lodgment embarrasses respiration and creates a constant and almost irresistible desire to swallow the discharge, by drawing the offensive substance into the throat by a loud insuflation through the nose, so as then to be able to eject it by a disagreeable "hawking."

Offensive Breath.

In the most advanced stages the discharges are generally of an offensive odor, causing great annoyance to one's friends and to the patient himself, while his sense of smell remains. This annoyance from the odor becomes almost beyond endurance, more especially when the disease assumes the form of ozena, and the delicate bones of the nose become diseased.

Fatal Effects of Catarrh.

The swallowing of catarrhal secretions deranges the functions of the stomach, causing indigestion and loss of appetite and health. Debility, paleness, lassitude, headache and disturbance of mind follow.

Consumption and Death.

Catarrhal affections, unchecked by treatment, are prone to extend by continuity of surface along the natural air passages of the lungs, thus causing consumption and death. In this connection it should also be remembered that the air which enters the lungs of a catarrhal patient is, every breath of it, poisoned by the emanation from the foul secretions of the diseased surface. This consideration alone should be sufficient to induce every person thus afflicted to make application for relief.

Treatment and Cure.

In few departments of medicine has there been wrought, in recent times, a more complete reformation in that of the Pathology and Therapeutics of diseases of the respiratory organs. The introduction of the Laryngoscope has given a grade of positiveness and certainty to the actual seat of the disease.

By my treatment a complete and permanent cure of this repulsive disorder can be effected. I have demonstrated in thousands of cases, representing the disease every form of its various stages of development. My applications are made to reach the diseased parts in the most direct and positive manner. Instantaneously penetrating every cell and cavity of the head communicating with the nostrils and subjecting every portion of the membrane to the healing action of the remedy employed with the most beneficial results.
